3rd Grade ELA GT 2022-2023 (Week 6 - Week 9)

Teachers may choose from the list of Essential Questions below or create their own.

Which strategies will effectively assist readers to infer and

4. How is the understanding of place value used to compare and order whole numbers?

2: Algebraic Thinking & Operations Part I
Grade 3 Math 2022 - 2023 (Week 6 - Week 9)

1. How can I use place value and properties of operations to multiply multiples of 10?
2. How are strategies used to solve multiplication?
3. How are properties of operations used as strategies to multiply?
4. What strategies can I use to demonstrate fluency of basic multiplication and related facts of

4. How is the understanding of place value used to compare and order whole numbers?
5. How can I compare numbers through 999,999?

Unit 2: Algebraic Thinking & Operations Part 1
Grade 3GT Math 2022 - 2023 (Week 6 - Week 9)

1. How are strategies used to solve multiplication?
2. How are properties of operations used as strategies to multiply?
3. What strategies can be used to find area?
4. How can area be used to solve problems?
5. How can place value be used when

- 2) How can students use process skills to conduct a scientific investigation?
- 3) How does questioning guide our scientific thinking?

Unit 2: Environments and Habitats

gain information from
the text?

Unit 3 Historical
Fiction & Literary
Nonfiction

photographs or
poetry texts, texts

gain information from
the text?

How can a reader
grow as a reader and
a thinker?

How do different
media and formats
communicate
meaning and
understanding of
topics or issues to
the reader?

How do different
texts convey
information on the
same topic or
concept?

How do author's
communicate their
