

Fundamentals of Writing

Employ a recursive writing process that includes planning, drafting, revising, editing, rewriting, publishing, and reflecting.

Interact and collaborate with peers and adults to develop and strengthen writing.

Produce writing in which the development, organization, and style are appropriate to task, purpose, discipline, and audience.

Use clear and coherent written language to accomplish a purpose such as learning, enjoyment, argument, and the exchange of information.

Monitor progress throughout the writing process and adjust strategies as needed from independence to collaboration within a writing community.

Incorporate authors' craft techniques observed from wide reading of anchor and mentor texts across disciplines to inform, explain, convince/argue, and entertain.
