

PowerSchool Parent Portal Access Account Setup Instructions

PowerSchool allows parents to create a single sign on account where they can add and then view all their student information in a single login account (even if the students attend different schools). When an account is created, an access code and password for each student must be entered. Please contact your school for your student(s) codes.

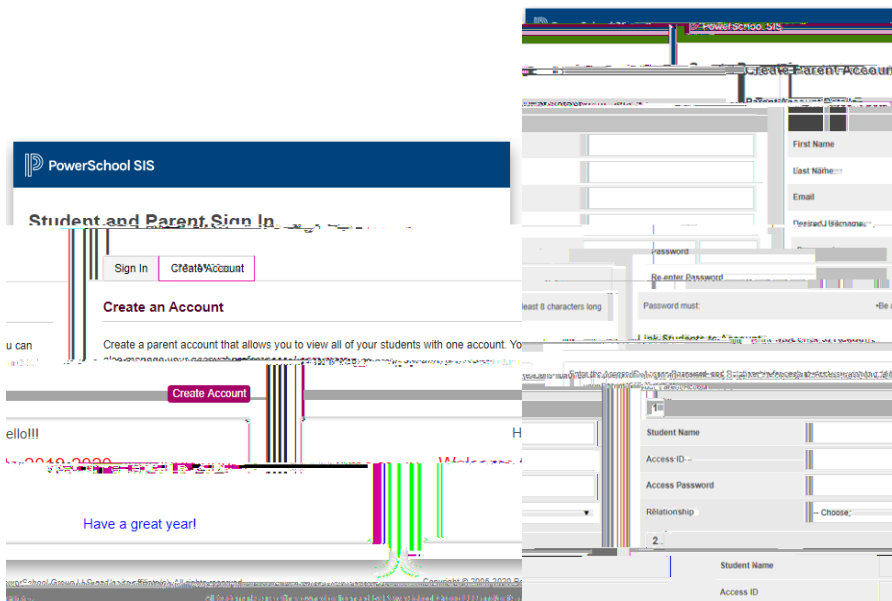

The web address for Parent Portal is <https://aiken.powerschool.com/public/home.html>

Alternatively, you can navigate to our district website (<https://www.acpsd.net/>), or any of our individual school websites.

Once you navigate to the Parent Portal, click the Create Account tab to create an account.

As a reminder: you will need the specific Web ID and Web Password for your student(s) information can be obtained by contacting your school. Parents will not have to create usernames and passwords to log in: each parent can set up their own, unique, account.

Once you click Create Account, you will enter your personal information as well as your student(s) information. After entering the information, scroll to the bottom of the page and click Enter.
